

TechCon 2001

In Order of Presentation at the Conference

Where Do Renewables, Energy Efficiency and Climate Change Impact the Ongoing Re-structuring of the Electricity Industry? Keynote Address Mike Underhill	1
Sling-Shot Hope Michael Zammit	5
Through-life Management of Power Transformers Dennis J. Allan	15
A "Dime" Chasing a "Nickel" Robert J. Sansone	29
Aging and Gassing of Mineral Insulating Oils Rolf Stokhuyzen	39
Application of Transformer On-line Monitoring and Loadability Modeling Walter Seitlinger, Ernst Knoll	57
Remote Early Warning Monitor For Transformer Protection Joe Unsworth, David Tallis	65
Employment of Vacuum Dehydration / Mass Transfer Technology for Treatment of Insulating Oils John Duchowski, Kellyanne G. Collins, David W. Deines, Susan K. Oxford	81
Transformer Failures in Sub-Sahara Africa: Five-Year Review 2000 Sakkie van Wyk	95
Developments in Diagnostics for High-Voltage Electrical Equipment Ted Hauptert, Dave Hanson, John Leonardo, John Wysocki	109
Assessment of Moisture in Transformer Oil and Paper Insulation Valery G. Davydov, Oleg M. Roizman	125

The Impact of Design and Application On Cost, Performance and Reliability of Power Transformers Harold R. Moore	139
Developments in Dynamic Rating, Monitoring, Control and Communications for Power Transformers Peter Stewart	153
Practical Application of 2-furfural to Diagnose Transformer Insulation Condition Tony Mayne, John Daley	163
Oil Sampling and Testing to Optimise Maintenance of 11kV Oil Filled Switchgear David T. Hughes	179
Study and Design of Power Plant Transformers Explosion and Fire Prevention Philippe Magnier, David Scheurer, Sylvain Prigent, Alexis Nesa, Noumen Darcherif	189
Determination of Equivalent Moisture in Large Power Transformers Using Recovery Voltage Measurements Syed Islam	215
Tough Decisions for Utilities Peter L. Austin	239
